Digitized by the Internet Archive
in 2012 with funding from
Federally funded with LSTA funds through the Massachusetts Board of Library Commissioners

This is a special issue of the school newspaper, THE ARCHON. It is designed not only to replace the usual school catalog but also to provide a more intimate and complete picture of the life of the school than the usual catalog affords. If this booklet fails in either of these purposes, we will be pleased to know in what respect the reader finds it unsatisfactory.

The usual format, appearance, and arrangement of the paper have been preserved; and the text and most of the photographs are reprinted from the regular issues published during the school year of 1931 - 32. The remainder of the photographs are reprinted from the current issue of THE MILESTONE, the school yearbook. The text has been rearranged where necessary to give a coherent story of activities reported in more than one of the regular issues. An appendix in the last few columns contains a complete list of trustees, masters, and students of Governor Dummer Academy for 1931 - 1932.

Number 8

REGISTRATION REACHES ONE HUNDRED AND TWELVE

The enrollment at Governor Dummer this fall has reached a total of one hundred and twelve, twenty more than last year, and as far as is known, the largest in the history of the school. The increase over the registration of last year is especially encouraging in this year of business depression when many boys who would normally be in private schools are spending another year in the public schools.

Fourteen states, the District of Columbia, and two foreign countries are represented in the student body this year. Massachusetts, as is to be expected, leads with fifty-nine boys, four more than half of the total registration. New York and New Jersey are tied for second with ten each; and Maine is third with nine. Connecticut has seven; New Hampshire six; and Florida two. Illinois, Indiana, New Mexico, Ohio, Oklahoma, Nebraska, and the District of Columbia have one each. The two foreign countries represented are Cuba and Mexico, each by one boy.

SEVERAL COLLEGE DEANS VISIT GOVERNOR DUMMER

During the year the deans or directors of admission of several colleges have visited the Academy. In each case the visitor has been invited to speak at the evening meeting of the school and afterwards to meet informally the boys who are interested in the college which he represents. By encouraging such visits and by visiting the colleges with groups of seniors, the Headmaster seeks to foster friendly relations with the leading colleges.

On Tuesday evening, December first, Mr. Henry Pennypacker, Chairman of the Committee on Admissions at Harvard College, spoke to the students during the regular evening meeting. He urged the boys to learn how to make the most of their lives.

Dean Henry Agard, Director of Admissions of Williams College, visited the school on April 16. At the evening meeting Dean Agard gave some valuable advice to freshmen entering college. He said that one must adjust oneself to an irregular schedule and that the responsibility of every day's work is up to the individual.

Dean Bigelow of Brown and Dean Sprague of Amherst have paid similar visits to the Academy this winter.

MR. WILLIAM HUGH MITCHELL TO JOIN FACULTY NEXT FALL

Mr. Eames has recently announced the appointment of Mr. William Hugh Mitchell to the faculty of Governor Dummer Academy. Mr. Mitchell has been at the Nichols Country Day School of Buffalo for the past twenty-one years and is remembered with affection and gratitude by the many boys who have sat in his classes during those years, among them Mr. Eames himself. At Governor Dummer, where he will begin his new duties next September, Mr. Mitchell will conduct classes in history and in mathematics. It is planned that the addition of Mr. Mitchell to the mathematics staff will make it possible to separate the mathematics and science departments and to increase the number of courses in science offered each year.

His many years of faithful service have earned Mr. Mitchell an unique position at the Nichols School. He has seen several new Headmasters take over the school, one of them a boy who had once sat in his classes, and he has seen masters come and go until he is now senior master with a record of service longer by nearly ten years than that of any of his colleagues. During the twenty-one years that he has been at Nichols he has never missed a class for any reason and has never been late for a class. For many years he has made a practise of being in his classroom one hour before the opening of school in the morning in order to help those boys who voluntarily seek him out for assistance in their work, and the extent to which his unselfishness is appreciated is well indicated by the number of boys who avail themselves of the unusual privilege by arriving at a day school an hour before the first class.

Mr. Mitchell was born in Acworth, New Hampshire, on April 10, 1872, prepared for college at Kimball Union Academy of Meriden, New Hampshire, and graduated from Dartmouth in 1898. He served in the United States Army during the Spanish-American war and was a member of the Porto Rican expedition. His first teaching position was at Kenyon Academy in Ohio. From there he returned to Dartmouth in 1902 for two years of teaching and graduate work, receiving his master's degree in 1904. After two more years at Kenyon Academy and four at the University School of Cleveland, Ohio, he accepted his present position at the Nichols School in 1911. It is an interesting coinci-

dence that the Headmaster who appointed him was Mr. Joseph Dana Allen, now Headmaster of the Brooklyn Polytechnic School, and the father of Dana Allen, Jr., of the Governor Dummer faculty.

Mr. Mitchell is a College Board Reader in mathematics and a member of several historical societies. He has an excellent College Board record and has not had a failure in several years. He is unmarried.

LAST YEAR'S GRADUATES
ATTEND MANY COLLEGES

The members of the graduating class of 1931 are now enrolled in many colleges throughout the eastern part of the United States. Williams College and the Massachusetts Institute of Technology attracted the greatest number of graduates from Governor Dummer. Frederick S. McVeigh, Howard Navins, and Philip Collins are members of the freshman class at Williams. and Otto and Reinhard Thelen and Weldon Ray at Tech. John Young and Howard Rosenfeld are at Harvard, Daniel Barrell and Ward Fearnside at Bowdoin, and Hayward Brown and Slayton Underhill at Brown University.

The remaining members of the class are widely scattered. Lawrence W. Churchill, captain of last year's football team, is at Amherst College, Edward Hessian at William and Mary, J. Harris Latimer, president of the class, at Dartmouth, and George Ritter at Ohio State. Carl A. Buechner Jr. is at West Point Preparatory School awaiting an appointment to the United States Military Academy.

MR. CARROLL PERRY AND
MR. DAVID WHEATLAND
ARE ELECTED TRUSTEES

At the June 1931 meeting of the Board of Trustees of Governor Dummer Academy, the Reverend Mr. Carroll Perry, Rector of the Ascension Memorial Church of Ipswich, Massachusetts, was elected to succeed the late Mr. Fred M. Ambrose.

Mr. Perry is a graduate of Andover in the class of 1886, of Williams College in the class of 1890, and of the Yale Divinity School in the class of 1893. His first charges were in Brookline and California, but for the past ten years he has been at Ipswich. Last year he visited the Academy and spoke at the Sunday evening Vespers.

Mr. Perry is a member of a family famous for its interest in education. His father was a professor at Williams College and both his brothers are famous educators, Mr. Bliss

Perry being Professor of English Literature at Harvard, and Mr. Lewis Perry Headmaster of Exeter Academy.

At a meeting of the Board of Trustees held in the Noyes Memorial Library on Saturday, May 14, Mr. David Wheatland of Marblehead, son of Mr. and Mrs. Richard Wheatland of Topsfield and Boston, was elected a Trustee of the Academy.

Mr. Wheatland prepared for college at Groton and entered Massachusetts Institute of Technology in the course leading to a commission as Engineering Ensign in the United States Navy. He received his commission too late to see active service and then entered Harvard, where he received his A. B. in 1921. After leaving college he became associated with Mr. David Pingree of Salem and spent several years supervising the large timber holdings of the company in Maine before returning to Massachusetts.

Mr. Wheatland and his wife, the former Miss Elizabeth Hinckley of Bangor, Maine, have two children and are now living in Marblehead. Besides his business duties Mr. Wheatland is now engaged in research work at the Cruft radio laboratory of Harvard, where he is working with Professor Emory Leon Chafee.

A complete list of the trustees will be found on page 29.

MASTER MOODY'S CHAIR
PRESENTED TO ACADEMY

The Academy has recently acquired an interesting relic of its first master, a chair used by Master Samuel Moody. The seat of the chair is of pine, the back and legs of some harder wood, probably birch, and the arms of mahogany. At one time it was apparently painted green, and had some sort of leather or a cushion tacked on the seat. It is of unusual design, much resembling the old-fashioned country squires' chairs often found in lawyers' offices one or two generations ago.

The chair was presented by the Misses Caroline L. and Harriot W. Colman of Newburyport. It was long in the possession of their father, the late James G. Colman, son of Colonel Jeremiah Colman, a graduate of the Academy and member of the Board of Trustees from 1829 to 1866. The Misses Colman's maternal grandfather, Dr. Leonard Witherington, was also a Trustee of the Academy from 1831 to 1852.

A plate is now being made to identify the chair and to commemorate the gift. It will be attached to the back of the chair, which has been placed in the Mansion House with the famous Governor Dummer chairs.

THE FACULTY OF GOVERNOR DUMMER ACADEMY

Standing: Mr. Edward Hogenauer; Mr. Joseph D. Allen, Jr.; Mr. Francis J. Reagan; Mr. Edgar D. Dunning; Mr. Charles D. Brodhead; Mr. Leander R. Kirk; Mr. Richard J. Hearn.
Seated: Mr. Thomas McC. Mercer; Mr. William B. Jacob; Mr. A. MacDonald Murphy; Mr. Edward W. Eames; Mr. Osborn P. Nash, 2nd.; Mr. Arthur Sager; Mr. Chandler W. Johnson.

FOUR MASTERS ADDED TO
GOVERNOR DUMMER FACULTY

Four masters have been added to the Governor Dummer Faculty this year, bringing the total to fourteen, two masters to every seventeen boys. The unusually high ratio of masters to boys makes it possible to limit the number of boys in any class to fifteen.

Mr. Joseph Dana Allen, an instructor in languages and history, prepared for Harvard at the Polytechnic Preparatory School of Brooklyn, New York, where his father, Mr. Joseph Dana Allen, is Headmaster. At college Mr. Allen was a member of the fencing and swimming teams, of the Speaker's Club, and of the Hasty Pudding Institute. He received his A.B. from Harvard in June 1931. Besides his teaching duties, Mr. Allen is coaching the junior football team and acting as corridor master on the second floor of Perkins.

Mr. Chandler Winslow Johnson, son of Professor and Mrs. Jerome Johnson of Cambridge, is a graduate of Deerfield Academy in the class of 1922. He left Harvard in 1926

to become an official in the Western Air Transportation Company. At Governor Dummer Mr. Johnson has charge of golf and assists with school business.

The new science instructor is Mr. Leander R. Kirk of Newcastle, Pennsylvania. After receiving his degree in 1925 from Amherst College, where he was a member of Delta Upsilon fraternity and a tackle on the football team, Mr. Kirk went to Ohio State University for a graduate course in chemical engineering. In connection with his duties as a ceramic engineer he has done considerable research in glazing. At Governor Dummer Mr. Kirk teaches chemistry, geometry, and general science and assists in athletics. Mr. and Mrs. Kirk live in Moody House, where Mr. Kirk is dormitory master.

Mr. Edward T. Hogenauer, a graduate of Haverford College in the class of 1929, was appointed to the faculty at the beginning of the winter term. Mr. Hogenauer has travelled in Europe for the past two years, studying at Zurich and at Geneva. At Governor Dummer he teaches modern languages and assists in athletics.

THE GOVERNOR DUMMER GLEE CLUB

GLEE CLUB PLACES FIFTH IN NEW YORK COMPETITION

On Saturday evening, February 20, the Governor Dummer Glee Club participated in the tenth annual Inter-Preparatory School Glee Club Contest at Town Hall, New York City, winning a tie for second place in the prize song and fifth place in the general standing. Eight other schools were represented, Deerfield Academy, Pawling, Riverdale, Storm King, Moses Brown, Peddie, Tome, and Horace Mann.

Each club was required to sing two numbers in the major competition, a prize song and a choice song. The prize song was Arthur Hall's arrangement of the chantey "High Barbary," and as a choice song the Governor Dummer club sang "Goin' Home." There was also a school song contest in which Governor Dummer was not entered. The different clubs took turns in mounting the platform to render each song, the Academy club being the third to sing their choice song and next to last in the prize song. A slight nervousness which marked the club's first appearance on the stage had entirely disappeared when they came on the stage to sing the prize song, and there was a general feeling of admiration in the audience both for their appearance and for the excellence of their singing. Many commented that no club had ever done better on first entering the competition.

COMMENCEMENT CONCERT CLOSES SATISFACTORY MUSICAL CLUB SEASON

The commencement concert at Lang Gymnasium this afternoon will conclude what has been a very satisfactory season for the Governor Dummer musical clubs. Probably the greatest single source of satisfaction to the director and members of the club and to the school was the Glee Club's success in winning second place in the prize song at the New York contest. Since that time *High Barbary* has been the most popular number in the club's repertoire.

On May 27 the musical clubs made a trip to Portland, Maine, where the glee club was scheduled to broadcast a shortened program over station WCSH from the Eastland Hotel. The program included *High Barbary*, *Entrance and March of the Peers*, *Ol' Gray Robe*, *Goin' Home*, *Passing By*, *The Battle of Jericho*, and the school *Senior Song*.

Through the kindness of Mr. William H. Rines the club was able to have a dress rehearsal at a reception in the Egyptian Room

of the Eastland Hotel in the afternoon. Besides the club members and Mr. Sager, the director, Mr. and Mrs. Eames, Mr. and Mrs. Dunning, Mrs. Jacob, and Mr. Hearn were present from the school. Mrs. Rines and Mrs. Spalding Bisbee poured, and many of the boys' parents and friends took the opportunity to hear the club.

Between the reception and the radio concert, which occurred at seven o'clock, the members of the club enjoyed their annual banquet in a private dining room.

ALUMNI DINNER PROGRAM INCLUDES MANY FEATURES

The annual alumni dinner will be held at Lang Gymnasium at six o'clock this evening. By custom called the Alumni Dinner, it has come to be much more inclusive: for all friends of the school and parents and friends of the boys are urged to attend, and the dinner is now the culmination of the commencement program.

Arrangements have been made to seat seventy-five additional guests in the balcony this year. Among them will be the choir of fifty voices which will sing a number of old-fashioned songs during the evening, under the direction of Mr. Wallace Adams. There will also be group singing under the direction of Mr. Arthur Sager of the faculty.

The Reverend Carroll Perry of Ipswich, a member of the Board of Trustees, will preside as toastmaster at the speaker's table arranged on a platform at the north side of the gymnasium and seating forty-four people. The speakers will be the Reverend Ashley Day Leavitt of Brookline and the Honorable Channing Cox, ex-Governor of Massachusetts. Dr. Leavitt, who delivered the final Vespers talk of the year last Sunday, is a graduate of Yale, 1900, and of the Hartford Theological Seminary, 1903. At Yale he was a member of Psi Upsilon and of Skull and Bones. Since 1919 he has been Pastor of the Harvard Congregational Church in Brookline.

The Honorable Channing Cox is a graduate of Dartmouth, 1901, and of the Harvard Law School, 1904. Honorary degrees have been conferred on him by Dartmouth, 1923, and by Tufts, 1923. His political career began in 1910 with his election to the Massachusetts House of Representatives, of which he was Speaker from 1915 to 1918. He was elected Lieutenant Governor of the Commonwealth in 1919, and Governor in 1921. In 1923 he was returned to the governorship for a second term. Since retiring from public life he has been active as a director of numerous banks and of many charitable institutions.

DR. CLAUDE MOORE FUESS TO
GIVE GRADUATION ADDRESS

The address at the Graduation Exercises this morning will be given by Dr. Claude Moore Fuess of Phillips Academy, Andover. His many years of service at Andover make the choice of Dr. Fuess as the graduation speaker a particularly fitting one.

Dr. Fuess was born at Waterville, New York, in 1885. From the local high school he went to Amherst College, where he was a member of Alpha Delta Phi and of Phi Beta Kappa, graduating in 1905. He continued his studies at Columbia, where he received his master's degree in 1906 and his doctorate in 1912. He first joined the English department at Andover in 1913, and has been there continuously since that time except for two years during the war when he served in the Personnel Division at Camp Joseph E. Johnston, Jacksonville, Florida. He became the Elizabeth Milbank Anderson Foundation Professor of English at Andover in 1928, and has written and edited many books.

TERRY STAPLES AND SHAW
CARTER WIN MORSE FLAG
AND THE MASTER'S PRIZE

A significant part of the Graduation Exercises this morning is the award of prizes to members of the graduating class and of the student body who have stood out among their fellows. These awards have come to mean so much to the school that *The Archon* has requested permission to print parts of the speech in which the Headmaster will award the prizes. Mr. Eames will say in part:

"It is a great pleasure to welcome you all to these one hundred and sixty-ninth Commencement Exercises of Governor Dummer Academy. We have come together today to celebrate the graduation of a senior class of thirty-three boys, the largest which has ever graduated from this Academy. I think it is interesting that, in times like these, the oldest boarding school in America should be graduating the largest class in its history. Perhaps there are some of us after all, young teachers and older parents, who are beginning to believe there is some good in old-fashioned ways.

"And so I am glad to welcome you today in the name of an old-fashioned school,—a school which in a period of educational theorizing and change has tried 'to keep its feet on the ground;' a school which believes it is as dangerous to 'experiment' with other people's children as to 'speculate' with other

people's money; and a school which does not believe it possible to 'get rich quick' in the educational world any more than in the business world.

"It is my duty this morning to award the various prizes for the school year now closing. It was interesting to me in reviewing the list to see how many of these prizes, as well as all the other rewards which life will later offer these boys, will be given to those who possess in abundance the plain, old-fashioned virtues,— boys who have learned to work hard and honestly and to love one another "

Mr. Eames will then award the annual Track Prize to Gardiner Josiah Maxcy of

TERRY STAPLES

The Winner of the Morse Flag This Year is the Son of Mr. and Mrs. Alva S. Staples of Kingston, New York. He Has Been at Governor Dummer Two Years and This Year Captained the Wrestling Squad.

Portland, Maine; the Dalton Hamor Baseball Prize to Zigmund Rogers of Amesbury; and the Goodwin Athletic Prize to Howard Walter Walker of North Andover, winner of the same prize last year.

The Moody Kent Prizes, among the oldest given by the Academy, are given annually for the highest standing in each department of study. The winners this year are William Austen Buechner of East Orange, New Jersey, Modern Languages; John Dean Orr of Concord, New Hampshire, English; Ernst Paul Lewis Krippendorf of Lynn, Mathematics; Stanley Lewis Levin of Waterbury, Connecti-

THE REVEREND MR. CARROLL PERRY Photo by George Tryon

The New Member of the Board of Trustees is Here Shown in His Study in the Rectory of the Church of the Ascension at Ipswich.

cut, History; and William Sumner Johnson of New Rochelle, New York, Classics and Science. The boy who wins the unusual distinction of taking the departmental prizes in two such unrelated subjects is the son of Roy W. Johnson, 1900.

The Ambrose Prizes, given by the late Fred M. Ambrose, 1876, formerly a trustee of the Academy, will be awarded at this time to the winners of the contest held Thursday afternoon in the guise of a model meeting of the Council of the League of Nations at which each of the six contestants took the part of a representative of one of the powers and declaimed a speech actually delivered in the discussion of the Manchurian question.

In announcing the winner of the next prize Mr. Eames will say:

"The final award for purely scholastic achievement is the Thorndike Hilton Cup which was given by the class of 1919 in memory of their classmate and friend. Each year the name of the ranking scholar of the senior class is engraved upon the cup. This year the ranking scholar is William Sumner Johnson, of New Rochelle, New York, who you will remember has already appeared before this

platform. I believe that there has been no member of the student body this year who has more completely captured the respect and friendship of faculty and boys than Bill Johnson.

"I want now to award special prizes to a short list of boys who seem to merit special recognition on this Commencement Day. It is not always possible to find the boy to fit the prize, but it is always possible to give a prize to a deserving boy. Here then are the boys who are considered to have earned special merit during the year now closing."

The boys receiving the special prizes are Stanley Forbush McGarry, Jr., Colin Francis Soule, Elwood Norton Chase, Everett Austin Black, Nathaniel Sanders, George Henry Tryon, Jose Perez Beola, George Norbury Laite, Frank Arthur Benham, Marshall Sargent, and Albert E. Pennock. After awarding these prizes, Mr. Eames will conclude:

"There now remain only two prizes to be awarded. These have been reserved for the last, because of the unusual importance attached to them. The first of these final prizes is the Morse Flag. Some years ago our good friend and neighbor, the Reverend Glenn Til-

ley Morse, established a fund for the purchase every year of a new flag to fly from the schoolhouse. He provided further that the old flag, the one which had been in use throughout the year, be given to that member of the graduating class whose record in all respects met with the highest approval of the faculty. Thus, while this prize has little intrinsic worth, it is valued more highly than many of the others.

"The faculty have always been careful to award this prize to a senior of unusually high character and strong leadership, a boy of good scholarship and wide interests. Last year the prize was awarded to John Young, and probably to mention John's name is the best way to describe the prize to the boys here in school.

"The prize is this year awarded to Terry Staples of Kingston, New York.

"The final award is the Master's Prize. There is little difference between the purpose of this award and the Morse Flag. It is to be given to that 'member of the graduating class who by his unselfishness and sportsmanship has best exemplified the spirit of the school.' It is to be given this year to Shaw Carter, an honor student, president of the class of 1932, and captain of the football team.

"It is, of course, impossible from this platform for me to tell you all that lies back of the award of these prizes, to tell you just how Mrs. Eames and I feel when we come to the end of another year, and see the boys with whom we have struggled and for whom we have come to care so deeply prepare to leave the school. I am afraid that all I can say just now about Shaw and Terry and their classmates is that they will go out with our blessing upon them. The Master's Prize—to Shaw Carter."

HARVARD INSTRUMENTAL CLUB CONCERT PLEASES STUDENTS AND GUESTS

The Harvard Instrumental Clubs came to Governor Dummer Academy on Saturday, December fifth, as one of the regular Saturday evening entertainments. About seventy-five guests from Newburyport and vicinity were present, and with the faculty and students they formed an audience which practically filled Lang Gymnasium, which had been decorated and equipped with a stage for the occasion.

The Instrumental Clubs are wholly the product of undergraduate interest at Harvard. Besides being composed of students, the clubs have no official connection with the univer-

sity but are managed entirely by the students. Their organization was largely the work of Mr. Donald C. Gates, whom students will remember as the man who spoke at evening meeting on Armistice Day.

The seventy-five members who participated in the concert at Governor Dummer were divided into several groups, the mandolin club, the banjo club, the vocal unit, and the Gold Coast Orchestra. There were also a magician who performed with truly professional skill, and a short humorous sketch by a quartet entitled the "Pyorrhean Sorority." The Gold Coast Orchestra seemed to be the most popular group with the students, altho the whole concert was received with enthusiasm by the students and by the guests.

FORTY COUPLES ATTEND ANNUAL SPRING DANCE

The spring dance held in the Lang Gymnasium on April 30 proved to be an exceptionally pleasant one; and much credit is due the committee in charge, which was composed of Louis Sumner, chairman, James S. Smith, William Bauer, Raymond Jones, Elwood Chase, Charles Caddoo, S. Forbush McGarry, Paul Rutherford, and Terry Staples.

Besides Mr. and Mrs. Eames and other members of the faculty, the patrons were Mr. and Mrs. Allan R. Shepard, Mr. and Mrs. Milton L. Dodge, and Mr. and Mrs. James T. Connolly of Newburyport.

DR. SIGMUND SPAETH, TUNE DETECTIVE, GIVES AMUSING VERSIONS OF JACK AND JILL

On Saturday evening, March 12, the school was treated to an unique entertainment by Dr. Sigmund Spaeth, the famous tune detective and broadcaster over the network of the National Broadcasting Company. He demonstrated how many songs could be written from one simple theme and how most songs are written by combining two or more series of notes. To illustrate he played on the piano the two notes that make up the call of the cuckoo bird and the three that make up the song of the bobwhite. When he played the five in succession everyone instantly recognized a popular song.

Two parts of the program were particularly amusing. The first was a rendition of the old rhyme about Jack and Jill in three different manners, that of the Italian Opera, of the German Opera, and of the modern American blues writer. The other was his concluding number, a study of the old song "Yes We Have No Bananas."

on the Campus.

HOLBEIN REPRODUCTIONS PRESENTED TO ACADEMY

Mrs. Edward A. Eames of Buffalo, New York, has presented ten beautiful reproductions of Holbein portraits to the Academy. The portraits, which include the famous "Man With Slough Hat," are part of the series of Haufstengle Prints made from the original copper plates confiscated during the war. The prints are made by the photo-lithograph process and retouched with pastel paints by German workmen brought over for the purpose. The result is a most faithful reproduction of the original charcoal and pastel drawings, which hang in Windsor Castle and in many galleries in Europe.

The portraits have been hung in the rooms on the first floor of Peirce Hall, and Mrs. Eames hopes to add to the number from time to time until at least one has been permanently hung in every boy's room.

The generous gift was prompted by several motives. Mrs. Eames had in mind partly the furtherance of the school policy of making the surroundings as homelike as possible and of minimizing the institutional aspect of a boy's life at school. She also wished to set a

standard for the decorations which boys provide for their own rooms; but chiefly this gift is looked upon as a first step toward fostering an appreciation of the graphic arts as Governor Dummer is already doing for music with the group singing, orchestra and glee club, and concerts by outside groups.

GOVERNOR DUMMER HAS HIGH AVERAGE IN JUNE COLLEGE BOARD EXAMS

Governor Dummer Academy candidates were highly successful in the June College Entrance examinations. Eleven boys took thirty-four examinations and passed all but two, an average of ninety-four percent.

John W. Whittlesey earned the highest grade with a mark of ninety-six in the Latin CP2 examination, but there were eleven other honor grades in the group.

On the basis of these examinations John Young was admitted to Harvard with honors in history, and Howard Rosenfeld with honors in French; and on these and earlier grades Ootto and Reinhard Thelen and Weldon Ray were admitted to the Massachusetts Institute of Technology.

MR. EAMES TAKES SENIORS
TO VISIT LEADING COLLEGES

On Wednesday, February 17, Mr. William B. Jacob took five boys to Bowdoin College on the first of the trips planned annually as a means of acquainting the boys with the colleges of their choice and of maintaining cordial relations with the leading colleges. These trips are also extremely valuable in that they afford the prospective student an opportunity to discuss entrance requirements and credits with the dean of admissions.

The five boys who went to Bowdoin with Mr. Jacob were John Healy, Hugh Barndollar, S. Forbush McGarry, Gardiner Maxcy, and Julius Halas. They left the Academy in Mr. Jacob's car immediately after breakfast and arrived at Brunswick in time to meet Dean Paul Nixon before being taken to luncheon at the Moulton House. Afterward they returned to Dean Nixon's office for individual conferences with him and Mr. Jacob. Dean Nixon, who spoke at the Alumni Dinner at the Academy last June, received the boys very kindly and expressed his interest in the school.

Later in the afternoon the boys visited several of the fraternity houses, attended the Hebron Academy-Bowdoin Freshmen track meet, and returned to the Alpha Delta Phi house for dinner before returning to the Academy.

On Tuesday, March 17, Mr. Eames took a group of seniors who are planning to enter Dartmouth to Hanover for personal interviews with Mr. E. Gordon Bill, Dean of Freshmen and Director of Admissions. Those who went were William Mack, Shaw Carter, William A. Buechner, Colin Soule, Stanley Levin, and Karl Wolff. They were driven to Lowell, where they caught a train for White River Junction, arriving at Hanover that evening. Two other boys, Terry Staples and Jose Beola, drove the entire distance and met the rest of the group at Hanover.

That night most of the boys slept in dormitory rooms provided by Harris Latimer, President of last year's class at Governor Dummer and now a freshman at Dartmouth. The next morning they assembled at the Hanover Inn where Mr. and Mrs. Eames were staying, and went from there to the Dean's office for their interviews. Three of the boys left for their homes immediately after the business of the trip was accomplished, but the remainder made with Mr. Eames a very enjoyable tour of the campus.

Similar trips were made during the year to Worcester Polytechnic Institute, to Brown University, and to Amherst College.

ACADEMY ACQUIRES USE
OF TWO HISTORIC HOUSES

The increased registration at Governor Dummer this year has made it necessary for the Academy to acquire the use of two more houses as dormitories. Mrs. Carrie Ambrose has provided accommodations for three boys this year, and Miss Helen McGregor Noyes has again permitted the use of part of her house. In addition, the Fleek House, where Mr. Jacob lived last year, has been furnished as a dormitory in charge of Mr. Brodhead; and Mrs. George F. Degen has generously allowed the Academy to use her home on the old lane west of the school grounds.

Both the Fleek and the Degen houses are interesting because of their great age and because of earlier connections with the Academy. The Fleek House was, according to tradition, the second building used by the Academy. Its age is not definitely known; but on the window sills of the upstairs rooms are carved initials and dates that show it to be almost as old as the Academy. The boy who carved the earliest date there, 1787, cannot be identified since he signed himself only by an unreadable cipher; but the name of one Robert Noyes appears there with several others with the date of 1803.

The Degen house is likewise of unknown age, but no dates and initials give a clue there. Mr. Ralph Adams Cram, who several times visited the house, placed its age at about two hundred years, basing his opinion on the workmanship and the materials used. Eight fireplaces, two of them with bake ovens and built-in iron kettles for boiling clothes, make an even greater age seem creditable. The lane on which the house stands was the original road to Boston. Over it provisions were sent to Washington's troops at Valley Forge.

Mr. Joseph Dummer, Trustee of the Academy, and an enthusiastic antiquarian, has ascertained that the Degen property, together with the neighboring Noyes and Ambrose properties, was part of the original grant to Richard Dummer in 1635. In 1701 he sold those three pieces of land to his nephew Richard. In 1720 the property was split again, and the part now included in the Noyes and Degen properties passed into the possession of Daniel Noyes. In 1776 what is now the Degen property was sold to Madame Margaret Pierpont, the widow who had once conducted a girls' school in the Mansion House. She it was who gave her name to "Peggy Pasture," the field across the road from the present Noyes property.

THE SENIORS' TRENCHES

President H. Shaw Carter and other members of the class are here shown starting one of the ditches for the drainage system which they recently completed on Morse Field as a class gift.

SENIOR CLASS MAKES AN UNUSUAL GIFT TO SCHOOL

Looking about for something out of the ordinary as a class gift to the school, the seniors this year decided to undertake the drainage of the southwest portion of the athletic field, a large area of which has in the past been useless in late fall and early spring because of surface water which has stood in large pools for several days after every rain. Mr. Frederick H. Goodwin of the Board of Trustees has provided the necessary tile, and Mr. Dunning of the faculty has drawn up the plans for a nine hundred foot system which is expected to make that portion of the field available as early in the spring as the portions where the drainage is naturally good.

Digging began on Thursday, May fifth, when every senior spent an hour or more in the trenches, and continues almost daily. The seniors are doing the entire job without supervision except by their own officers, and already more than half the excavation is completed.

OUTING CLUB ENJOYS TRIP TO CARTER NOTCH

On Friday afternoon, February 12, the Outing Club made its first trip to Carter Notch, a few miles from Mt. Washington. Two cars

were taken for the party of eleven, Mr. Jacob's and Lyman Belknap's. In Mr. Jacob's car were Mr. Jacob, George Tryon, Spencer Curry, Stanley Levin, John Hinchman, and Colin Soule. In Belknap's were Mr. Hogenauer, Lyman Belknap, Louis Wyman, Donald Lawrence, and George Davis.

The party left school about three o'clock and spent that night in a cabin of the Appalachian Mountain Club's camp at Pinkham Notch, directly at the foot of Mt. Washington. The next morning they made an early start, going in cars as far as the Glen House, three miles to the north, and then on skis and snow-shoes into Carter Notch. Since the trail was uphill all the way, it was difficult going. However the hut in the glen was reached in time for lunch, and shortly after finishing the meal and cleaning up the cabin, the descent was made. Mr. Hogenauer and Colin Soule, on skis, started out in advance and were able to make much better time than the rest of the group going down. Since it was fairly early in the afternoon when the party returned to the Appalachian Club camp, short trips were made to Glen Ellis Falls and to the Crystal Cascade. After supper everyone went to a movie in the nearest town, Dublin. The next morning both cars were found to be frozen, but after working on them for an hour, the group was able to start on the return trip to school.

The trip proved to be a great deal of fun, and other trips are looked forward to.

THE MANSION HOUSE

MILESTONES DISTRIBUTED AT ANNUAL SENIOR SING

At the annual Senior Sing Thursday evening the 1932 edition of *The Milestone*, the school annual, was distributed to the members of the graduating class. The book is dedicated this year to the Honorable Alden P. White, President of the Board of Trustees, and a devoted servant of the Academy. It differs from last year's annual chiefly in the increase in the number of informal pictures which it includes. Throughout, it shows a careful preparation that reflects credit on the staff and on Mr. Mercer, the faculty adviser. A feature of the book is an article by the Reverend Henry Wilder Foote of Belmont, Massachusetts, in which it is suggested that the famous portrait of Governor Dummer which hangs in the Mansion House was painted by the Governor's own father, Jeremiah Dummer, an amateur of some note in his day.

Another interesting part of the program at the Sing was the ceremony in which H. Shaw Carter, President of the class, made formal presentation of the drainage system recently completed on Morse Field as the class gift to the school. At the conclusion of the program the seniors marched around the historic milestone, singing the Senior Song, and then continued into the Mansion House.

FINE SPEAKERS TO FEATURE THE ANNUAL CHRISTMAS DINNER

This evening the annual Christmas Dinner will be held in the school dining room. About seventy-five guests are expected to partake of the turkey dinner provided by Miss Brown and to enjoy the excellent speakers that Mr. Eames has procured.

Mr. Leon M. Little, Treasurer of the Board of Trustees, will be the toastmaster and will introduce Mr. William J. Bingham, Athletic Director of Harvard College, and Mr. Howard S. Stuckey of Phillips Exeter. Between the speeches the Academy Glee Club, led by Mr. Arthur Sager of the faculty, will sing a number of songs. The forty boys in the club have prepared a Bach Chorale, "Grant Us to Do with Zeal" for the occasion. Among other songs they will sing last year's favorite glee club selection, "Old Man Noah," and "Ready when the Great Day Comes."

After a short resume of the past football season, Coach William B. Jacob will award first team letters to nineteen members of his squad and will announce the election of Richard L. Segler of Falmouth Foreside, Maine, to the captaincy of the 1932 team. At this time

each letter-man will also receive a gold football bearing his name and the position he played on the team during the past season.

Another feature of the dinner will be the presentation of two dozen silver spoons to Mr. and Mrs. Eames from the faculty. The presentation will be made by Mr. Brodhead.

PRIZE SPEAKING CONTEST TO TAKE FORM OF LEAGUE OF NATIONS MEETING

The Ambrose Prize Speaking to be held on Thursday, June ninth, will assume a novel form this year. A reproduction of the meetings of the League of Nations Council during the debate on the Shanghai and Manchurian conflicts will be the medium of the prize contest. Six boys chosen by preliminary trials from the senior class will be the chief characters, delivering the actual arguments presented at the sessions of the Council. Eight or nine other seniors whose parts consist of little more than voting on the propositions before the Council will complete the number of its members. The six speakers are:

Ernst Krippendorf—Briand of France.

Terry Staples—Yoshizawa of Japan

Stanley Levin—Sze of China.

Reginald Morrill—Viscount Cecil of England.

John Cushman—Madariaga of Spain.

Henry Root—Prentiss Gilbert of the U. S.

By devoting their effort to the reproduction of a living and critical episode in the drama of world affairs the boys hope to increase the value and interest of the contest.

HAMPTON QUARTET GIVES ENJOYABLE RECITAL OF PLANTATION MELODIES

On Friday, December 11, the Hampton Institute Quartet, composed of J. H. Wainwright, Bass; Jeremiah Thomas, Baritone; W. E. Creekmur, First Tenor, and J. A. Bailey, Second Tenor, presented a very excellent program of negro music to the Academy and some fifty guests who braved the bad weather to hear this famous group.

The program was divided into four sections, the last group of songs being mostly request numbers. Among the familiar pieces were *Mighty Like a Rose*, *Swing Low, Sweet Chariot*, *Goin' Home*, *Heav'n, Wheels*, and *Water Boy*. The selection that the students enjoyed most was *Juba*, the negro dance rhythm in which the singers kept time by slapping their hands against their legs.

THE MOODY HOUSE GROUP

Standing: William C. Bauer, Springfield, Mass.; William V. North, New Britain, Conn.; George S. Davis, Portland, Maine; and Edward Rayher of New York City.
Seated: Louis Wyman, Manchester, N. H.; Gerry Dietz, Albuquerque, New Mexico; William H. Rines, Cape Elizabeth, Maine; Donald Lawrence, Portland, Maine; and Philip Weber, Wrentham, Mass.

GOVERNOR WINANT OF
NEW HAMPSHIRE TO BE
SUNDAY NIGHT SPEAKER

Mr. Eames has announced that Governor John G. Winant of New Hampshire has accepted an invitation to speak at Vespers on Sunday, May 29. Governor Winant's talk will be of additional interest to the students because he will speak from an experience which includes several years as Headmaster of St. Paul's. Other future speakers include the Reverend Mr. Ashley Day Leavitt of the Harvard Congregational Church, Brookline, and the Reverend Mr. H. B. Ogilby of the Church of Our Saviour, Brookline.

Mr. Buell Trowbridge of Andover Faculty Discusses Problems Facing Present Generation

On Sunday, January 24, the school was extremely fortunate in having as the speaker at the Vesper Service, Mr. Buell Trowbridge, a member of the faculty of Phillips Andover Academy. Mr. Trowbridge, who is a graduate of Cornell University and was a student at Oxford, spoke on the great problem which must be solved in the near future by the present generation. That problem is war and

disagreement among nations, and every year it becomes more critical. To show the grimness of war, Mr. Trowbridge described the lives of two men who were ruined by the world war. In conclusion he said that if America were to refuse Europe aid in the present crisis, the whole continent would become bankrupt. He said that it was up to us, the incoming generation, to decide this problem, and that we would have to turn from our present type of citizenship to that of world citizenship.

Dr. Arthur Lee Kinsolving of Trinity Church Addresses Vespers on January 31

The Vespers speaker on January 31 was the Reverend Dr. Arthur Lee Kinsolving, Rector of Trinity Church, Boston, and formerly Director of Religious Activities at Amherst College. Dr. Kinsolving comes of a distinguished family of churchmen and is himself one of the most influential men in New England religious work today.

Dr. Kinsolving spoke on the text, "Ye are the salt of the earth," and attempted to show what Christ meant when he addressed those words to the group on the side of the mountain. We use the same expression today as a

compliment, but Dr. Kinsolving pointed out that Jesus probably had a much more exalted thought in his mind. He was relying on that group and on similar ones who had had the privilege of hearing his gospel at first hand to give flavor and direction to the world's spiritual life.

*The Reverend Mr. Daniel Bliss Shows
Function of Prayer*

On Sunday, February seventh, the Reverend Mr. Daniel Bliss, Assistant at the Old South Church of Boston, spoke on the function of prayer. He said that the triangular debate on the existence of a God which is being held in the pages of the *Christian Century* indicated a growing tendency to atheism, agnosticism, and a kind of materialism which recognizes the existence of God but ignores his connection with life and which is the most dangerous of the three. As in earthly companionship, he said, there must be communication between God and man. God's share is the inspiration he sends us, and our reply must be by means of prayer, not the kind which ignorantly asks for things that God can not possibly grant, or the kind which is offered as a substitute for intelligence and hard work, but the kind which asks for courage and strength to work out our own salvation.

*The Reverend Mr. Markham Stackpole Gives
First Vespers Talk in Spring Term*

At the first Vespers after the spring recess the Reverend Mr. Markham Stackpole of Milton Academy delivered a very fine address on faith and patience. He mentioned the patience and the faith that a teacher must have in his students to make that profession a satisfactory one where results can not be seen until long afterwards. Then he spoke of the faith and patience that a student must have to spend long years in preparation for life.

*The Reverend Vivian Pomeroy of Milton
Urges Fortitude in Facing Life*

On April 17 the Reverend Vivian Pomeroy of the First Congregational Church of Milton gave a very interesting and fascinating talk to the school. He immediately aroused the interest of all by relating the story of a friend in England who was very much discouraged with himself because of successive failures, but was given courage to begin again by being shown a Lincoln penny which had been tested by being placed beneath the wheels of a freight train. In spite of the terrific beating, the penny still bore the image which had been stamped upon it in the mint, and Mr. Pomeroy's friend saw the point and was inspired to show equal fortitude.

BACCALAUREATE SPEAKER

DISCUSSES FORCES WHICH
INFLUENCE HUMAN LIVES

The Reverend Leslie Glenn of Christ Church, Cambridge, delivered the annual address to the graduating class of Governor Dummer Academy at the Adelynrood Chapel Sunday afternoon, June fifth. He was assisted at the service by the Reverend Glenn Tilley Morse of West Newbury, a member of the Board of Trustees of the Academy.

In the baccalaureate address the Reverend Mr. Glenn said that everyone has an active interest in how things are done, particularly if the things are well done. With that introduction, he made an examination of the life of Jesus Christ and attempted to discover how Christ had exerted a dominating influence on the lives of men for nearly two thousand years. Particularly significant, he said, were the illustrations that the Saviour used. Himself a carpenter, He chose his illustrations from agriculture instead, preferring the life of growth to the mechanical one as an illustration. In describing the Kingdom of Heaven, He said that it was like a sower going forth to sow. In this famous parable, the speaker found a parallel to the work of all parents, teachers, and preachers; for they can only sow the seed. What comes of it depends on a number of things beyond their control, principally on the richness of the student's spiritual life.

Little and apparently insignificant things, the speaker said, often have a great part in shaping a person's life. In the career of Sir William Osler he found a striking example. The famous surgeon was sent to a small Canadian school only because his mother was attracted by a line in the catalog which read, "Singing and dancing are taught in the evening." But there he came under the influence of a great teacher who entirely reshaped his life.

In conclusion Mr. Glenn told the graduating class that in the next few years they would probably give little thought to the influence that had been exerted on their lives at Governor Dummer Academy, but that in distant years they would recall some trivial incident or conversation and realize that it had had a share in shaping their lives. The duty of the individual, he said, is to live so that the word of God, when it comes, may fall on "fertile ground."

After the service at Adelynrood the guests were invited to a reception at the Mansion House.

MILESTONES

Several weeks ago Mr. Eames suggested the interesting possibility of George Washington's passing along the old road from Boston on his way to Newburyport, shortly after the Revolutionary War. Since Tobias Lear, who had been a student at the Governor's Academy before his appointment as secretary to Washington, accompanied the latter on all his official trips, it does not fall entirely to the imagination to believe that Mr. Lear pointed out the Mansion House and the old milestone as landmarks.

George Washington about that time had reached a point at which he was forced to decide whether to return to his beloved Mount Vernon or to go back to his unpleasant task at the Capitol. We may therefore say that this point was literally a milestone in Washington's life.

Burdened as it is with warnings of future obstacles to overcome, this generation is tiring of receiving responsibilities; but it is, nevertheless, confronted with the fact that many present day difficulties will still be problems in the future. Our generation must pick out for itself the approaching milestones and must be prepared to arrive at them with the solutions for taking the turn in the right direction.

INFORMAL NOTES

Two of the backs who contributed largely to the success of the Governors a year ago this fall are now members of rival freshman teams. Lawrence W. Churchill, Jr., Captain and fullback of the 1930 team, is a regular on the Amherst freshman team; and Philip Collins has been doing fine work in the backfield for the Williams freshmen.

Beau Geste, a year-old great Dane, is the latest arrival on the campus. He was presented to Mrs. Eames by Mrs. John Sumner of Swampscott and has already become a popular member of the community. With Buzz, Mr. Nash's wire-haired; Ho Tang, Mrs. Dunning's chow, and Gluck, the chef's police dog, Beau makes up an aristocratic canine population.

On Wednesday, February 10, the whole school was pleasantly surprised when Mr. Eames announced at breakfast that because of the fine weather and fresh snow a general holiday would be observed. The school spent the entire day in sports attire, skating, hiking, or skiing as fancy dictated. In the afternoon the hockey game with the Brooks School attracted some to the rink, but the ski-run on the golf course was still popular, and boys could be seen snow-shoeing in every open space near the school.

Dartmouth College has accepted for admission next fall seven of the eight boys who applied from Governor Dummer. Since Dartmouth annually has several times as many applicants as can be accepted, both the boys and the school have a right to be proud of this record.

A number of the boys and several of the masters have had an opportunity on the recent clear nights to see some of the splendors of the heavens through the school's beautiful five inch refracting telescope. Thus far it has not been possible to give the entire school this opportunity, but it is hoped that in the near future it can be arranged.

It is pleasant to record at this time when the wrestling team is having a rather poor season that two members of last year's team are making good records for themselves in college. John Young, Captain of the Governors' team last year, holds the 155-pound position on the Harvard Freshman team and has been a consistent winner. Otto Thelen, also a member of the team last year, won a place in the 155-pound class on the freshman team of the Massachusetts Institute of Technology.

THURLO'S BRIDGE

Photograph by Hugo Poisson

The Third Oldest in New England, This Bridge Carried Passengers Over Parker River a Century Before the Academy Was Founded.

HISTORIC PARKER RIVER BRIDGE RECONSTRUCTED ON THE ORIGINAL SITE

This is one of a series of articles on the historical background of the Academy. A similar one appears in each of the regular issues.

A sign has recently been erected on the old turnpike opposite the milestone warning that the road is closed to traffic. Inquisitive students who have walked down the road a half mile or so to find out why have discovered that the old wooden bridge over the Parker river is being refloored, but few of them have known that that bridge is the third oldest in New England and has stood at exactly the same place for nearly three hundred years, since 1654, to be exact. We are justly proud of the long and honorable history of the Academy; but Thorlay's bridge had carried passengers over Parker river more than a hundred years when Master Moody met his first class in the Old Red Schoolhouse, and for more than twenty years before William Dummer was born. Only the Mystic river bridge at Medford and the Saugus river bridge at Saugus are older.

The location of the bridge, like that of the old turnpike of which it formed a part, was

determined by the difficulty and expense of construction before the introduction of steel. The Parker river bridge at Oldtown, for instance, now carried on two steel spans, was originally built in 1758 on seven stone piers. The location of Thorlay's bridge at a narrow point in the river enabled the builder to throw a single span between the abutments more than a hundred years before the town of Newbury could see its way to replace the ferry at Oldtown.

Richard Thorlay, the builder of the bridge, was apparently a man of considerable enterprise; for he first built the bridge and only when it was completed applied for permission to collect tolls. The fees which he might collect were fixed by the General Court at "2 pence for euery horse, cow, oxe, or any other great cattle, as also one half peny a peece for euery hogg, sheep, or goat that shall pass ouer said bridge, . . . provided that passengers shall be free."

Richard Thorlay having failed to keep up the bridge, it became town property some time before 1671; for in that year the General Court ordered that the town should repair it, which was done only after the third order. In 1678 it again became dangerous and was ordered rebuilt at the town's expense. The town being unwilling to expend the nec-

essary money, a new agreement was entered into between the town and Thomas Thorlay, son of the original builder. This agreement gave Thorlay the right to construct a new bridge and to collect tolls on it for ten years, at the end of which time the town reserved the right of recapture at a fair valuation to make it again a free bridge. In the meantime Thorlay bonded himself to the extent of one hundred pounds to keep the bridge in repair and to protect the town from any claims for damages arising from accidents upon it. But Thomas Thorlay was not to enjoy the profits of his investment long; for in spite of the agreement that he should collect tolls on it for ten years, the court ordered it made a free bridge in 1680 and awarded the builder only fifteen pounds for building it. Since that time it has been in continuous use, and until 1758 it was the only means of crossing the river except the ferry at Oldtown.

Today it is still known as Thurlo's bridge, a name which evidently derives from the colloquial pronunciation of the name of the original builder. In the court records the name is usually carefully and correctly spelled; several times, however, the court scribe was guided by hearing and spelled it "Thurlay"; and in the order by which the bridge was finally made free it is consistently referred to as *Thurlo's Bridge*. By that name it was apparently known when it carried the brunt of the traffic from Boston to northern New England; and so it is called now that it is merely a pleasant stopping place on "the back road to Newburyport".

VICTORY OVER DEERFIELD CONCLUDES FOOTBALL SEASON

The Governor Dummer football team ended an unusually satisfactory season with a twelve to nothing victory over Deerfield Academy at Deerfield on Saturday, November 21.

The Governors took the lead in the opening period when Walker faded back as though to throw a pass and then followed the interference through the line of scrimmage and dashed forty yards for a touchdown. The Governors' other score was made in the second period, with Walker again carrying the ball. The Governors' quarter-back caught a punt on his own twenty-yard line and ran the length of the field. Chase and Deuel each took out two men during this play, and Segler, Donovan, and Disbro also did excellent work in protecting the ball-carrier.

*Long Runs Feature 13 - 7 Victory Over
Moses Brown*

The Governors played their second game away from home with Moses Brown at Provi-

dence on Oct. 17. Moses Brown elected to receive the kick-off and after three downs kicked out of bounds on the Governors' 10 yard line. Caddoo took the ball through the line for 3 yards. On the second play Walker took the ball around right end, broke free from tacklers, and sprinted 90 yards for the first touchdown. The extra point was not made.

Moses Brown opened the next quarter with two incomplete passes and was penalized. With the ball in Governor Dummer's possession, the team advanced 25 yards, only to lose 20 yards because of a bad pass from center. Deuel and Wood made hard tackles be-

CAPTAIN H. SHAW CARTER

Son of Mr. and Mrs. Harry C. Carter of Pelham, New York, President of the Senior Class and Winner of the Master's Prize at Commencement.

hind the line, forcing Moses Brown to kick to Walker on his own 45 yard line. Running around the left side of the line to the accompaniment of beautiful interference and blocking, the Governors' quarter-back raced 55 yards for the second touchdown. A pass from Walker to Donovan gained the extra point. As the quarter ended Donovan completed two long end runs.

Governor Dummer 14 — Thayer 6

After playing away from home for two Saturdays, the Governors returned to South Byfield on October 24 to win an exciting game from Thayer Academy.

Photograph by George Tryon

A WELL EXECUTED PLAY AGAINST LAWRENCE
Captain Shaw Carter Cutting Right as a Decoy While Bob Donovan Cuts Left to
Receive a Pass From Howard Walker.

The first quarter was a scoreless period consisting of a number of costly fumbles by both teams. Walker and Caddoo made the best gains, and Mack and Deuel starred in the line, both making outstanding tackles. At the opening of the second quarter, the game began to pick up speed. The Governors scored on a perfectly executed pass thrown by Walker and caught by Donovan over the line. Walker kicked the extra point. On a long pass, thrown by Cushing, Thayer reached the Governors' 10 yard line, where the red team held for downs.

The third quarter opened with the interception of a pass by Walker on the 50 yard line. He eluded the safety and crossed the goal-line. The point was kicked by Walker. Reiche, Mack, and Caddoo distinguished themselves by their tackling in this quarter, and Donovan completed two long end runs.

GOVERNORS WIN FIVE
STRAIGHT TO CLOSE
BASKETBALL SEASON

The Governor Dummer basketball team closed its season on March ninth with a 57-28 victory over the strong Reading Alumni team, the ninth victory in a thirteen game schedule, and the fifth consecutive one. Many

of those who saw the Governors in their last game were convinced that playing as they were that night they could have beaten any team on the schedule. Against the Reading team and the Tech freshmen and against their opponents in the other late games the Governors played superb basketball. Their passing was especially noteworthy, but their shooting, too, was impressive; and their supporters were seldom disappointed by seeing a fine bit of passing spoiled by a sloppy try at the basket. Captain William Mack led both in scoring and in floor work, but it was essentially a balanced team, every member of which could be counted on to contribute his bit when called on. Stanley Sarnecki, John Cushman, Albert Disbro, Tommy Lyne, and Charles Caddoo were almost equally alert and dependable and between them made up a team that was a credit to Mr. Francis Reagan, their coach, and to the Academy.

Captain William Mack was high scorer of the year with a total of 147 points in the thirteen games on the schedule.

*Milton Academy Defeats Governors
in Fast Game*

The Governors lost another hard fought basketball game on Wednesday afternoon, February 17, to Milton Academy by the close

score of 24 to 22. The game was played on the spacious Milton Academy floor, and the game was won by Milton only in the very last period.

The contest was very close and exciting through most of the four periods. Sarnecki's sensational basket started the scoring after two minutes of play, and the period ended in a 5 to 5 score. Close covering and splendid teamwork featured the work of both teams during the second period which ended with Milton Academy leading by a 9 to 8 score.

In the first few minutes of the second half the Milton team proceeded to make a run-away of the game and rolled up an 18 to 8 lead before the Governors struck their stride and tossed in three baskets to close the period at 18 to 14. The last period saw plenty of action, with the Governors always threatening to take away the small lead the Milton Academy team held. In the last few minutes of play the Governors shot dozens of attempts at the Milton basket, but few took effect.

Governors Defeat M. I. T. Freshmen, 43 - 21

On Saturday evening, March fifth, the Governors defeated the M. I. T. Freshmen in a fast and extremely well-played game. During the first half the lead see-sawed back and forth, but the Governors finally led at half time by the score of 14 - 10. However, from the beginning of the second half the passing attack of the Governors was vastly improved, being led by Captain Mack and Stanley Sarnecki, the former scoring eleven points and the latter fifteen, to put the home team far in the lead. Rosengard was by far the outstanding player of the freshman team, while Albert Disbro and Jack Cushman turned in very good exhibitions for the home team.

WRESTLERS SHOW GOOD FORM BUT LOSE TO ANDOVER TEAM

On Saturday afternoon, March fifth, the Governor Dummer wrestling team finished its season with perhaps the most skillful and exciting exhibition of the year. Although they lost to the Andover Seconds, 19 - 24, when it is recalled that a month earlier they had lost to the same team, 35 - 0, it will be realized that a great improvement has taken place. The Governor's full team of eleven men took part in the meet.

In the 110-pound class Gerry Dietz was thrown by Barker of Andover by a double arm-lock. Mario Fernandez was the aggressor throughout his bout but failed to earn a fall and the match was called a draw. The Governors broke even in the 125 pound class when Reginald Morrill threw his man neatly

in less than four minutes and George Clapp lost by a time decision after nearly gaining a fall earlier in the bout. Harry Churchill was thrown by Teausch of Andover, but Jose Beola evened the count again by winning a decision over Stratton, Andover's most experienced wrestler, in a fast and exciting bout.

Captain Terry Staples and Kilbreck of Andover wrestled to a draw; Walter Comfort won his bout by a fall; and William Williamson lost his by the same means. Forbush McGarry gained an easy time decision over Reed in the 175-pound class to even the count again for the day. The final match was between Seth Martin of Governor Dummer and Swartwood of Andover. It was a hard bout and Martin put forth his best but lost by a small time decision.

FENCING EXHIBITION AROUSES ENTHUSIASM FOR NEW SPORT

In order to arouse interest in the sport, Mr. Dana Allen, who will coach the new fencing team, arranged an exhibition for the evening of Friday, December fourth. Mr. Allen, who was himself a member of the Harvard team and placed third in the intercollegiate matches of 1930, was able to bring to Governor Dummer several of the outstanding fencers of New England. Among them were Rene Perry, the coach of the Harvard fencing team; Edward and Everett Lane, national champions in 1929 and now members of the Boston Athletic Club; and Mr. James Parker, also of the B. A. A. Captain Robert Lawson of the Harvard team and Gilbert Kerlin, Thomas Moran, and John Hurd, three of his teammates, also participated.

Mr. Dana Allen arranged a tournament to complete the season for the large group of candidates which made up the first fencing squad at Governor Dummer. Not having thought it wise to arrange a schedule during the first season, he took this means of giving the fencers a test in more formal competition than ordinary daily practise afforded them.

The first division of the tournament was a ladder tournament in which each competitor was allowed to challenge each day either of the two men who were above him on the list but must also honor the challenge of the men below him. At the end of the third day Mr. Allen took the resulting list and arranged four strip tournaments, putting one of the first four men in each strip and so on until the whole squad was entered. Hugo Poisson, L. Dix Robbins, Harmon Hall, and John Healy emerged victorious from their respective strips

THE GOVERNORS' FIRST FENCING SQUAD

Back Row: Harvey Kelly; Ernst Krippendorf; Carl Jonas; John Hinchman; Harmon Hall; Baird Hodgkinson; Russell Robinson.

Middle Row: Thomas N. Willins, Manager; John Snyder; Hugo Poisson; Stanley Levin; John Ropes; John Bassette; L. Dix Robbins.

Front Row: Philip Weber; Drew King; Warren Johnson; Wentworth Smith; Colin Soule; John Healy; George Davis.

and were then matched in a round-robin tournament.

In the finals, which were held Friday afternoon, March 11, Poisson won from Hall and Healy but lost to Robbins; Hall won from Healy and Robbins but lost to Poisson; Robbins won from Poisson and Healy but lost to Hall. The triple tie which resulted made it necessary to award places by counting the number of touches scored by each competitor. On that basis Harmon Hall was declared the winner; but since a tie developed for second place, it was necessary to count the number of touches against each player before awarding second place to Hugo Poisson.

HOCKEY TEAM DEFEATS
DEERFIELD AND TABOR
BUT LOSES TO ANDOVER

Because of lack of ice, the Deerfield game scheduled for January 23 on the Governors' rink, was played in the Springfield Arena. The team was forced to leave the school early in the morning in order to make such a long trip, but the strain of the journey did not seem to

affect the ability or the sportsmanship of the team, which was victorious over Deerfield 6 - 4.

It was the opening game of the season for both teams, and both had been kept from practice because of the lack of ice. There was, therefore, little good team play, although our forwards from last year, Captain Chase, Howard Walker, and Calvin Eldred, swung quickly into their old form. Captain Elwood Chase opened the scoring in the first period, and his point was quickly followed by two tallies by Walker. Deerfield tied the score in the second period but Eldred and Walker then scored a goal each to give the Governors the lead again. Deerfield, led by Bogardus, shot the puck in for its fourth goal just before Chase made the final goal for Governor Dummer.

*Governors Win From Tabor Academy
at Boston Arena*

On Saturday, January 20, the Governors won their second victory by defeating Tabor Academy, 2 - 1 in the Boston Arena. Like the Deerfield game, the game with Tabor was originally scheduled for the Governor Dum-

THE HOCKEY SQUAD

Back Row: William A. Henneberry, Frederick McIntire, Henry Petri,
Hugh Barndollar, William P. Gove, Karl Wolff.

Front Row: James Smith, Zigmund Rogers, Howard Walker, Captain
Elwood Chase, Louis B. Sumner, Calvin Eldred, John Hosmer.

mer rink; but lack of ice made it necessary to secure the arena.

The entire game was hard fought, although it seemed that the Governors outplayed the Tabor team in several respects. During the first period neither team could score, both goalies making many fine saves. Early in the second period Way of Tabor scored, but immediately after the face-off, Henneberry evened the count. Rogers made the other goal for the Governors during the first part of the last period.

Governors Lose Hard Game to Andover

On February third the Governors' hockey team suffered its first defeat of the year when the Andover sextet won a two to one decision in a hard, fast game on the Andover rink. Altho' the Governors seemed to be the aggressors throughout the first and third periods, they were unable to score until nearly the end of the third period, when Walker beat the Andover goalie for the Governors' only score. Meanwhile Andover had scored in the second and third periods, and had settled into a steady defensive game.

Andover's second score occurred when

James Smith, the Governors' goalie, came out of the cage to make a difficult save and was carried to the ice by Walker, who tripped as he was rushing in to aid in the defense. Otherwise the Governors seemed to be playing superior hockey during the whole last period.

HEAVY HITTING AND GOOD PITCHING GIVE GOVERNORS EXCELLENT DIAMOND RECORD

The Governor Dummer baseball team will conclude its season this afternoon with a game with the Lynn Classical High School team on Morse Field. The Governors' chances of winning their final game are about even; but whether they win or lose, they will have a record of which they may be proud. Stanley Sarnecki's excellent pitching during the first half of the season, supplemented by the heavy hitting of the team, enabled them to take all but the Lawrence and Deerfield games. In the last half of the season the Governors were without the services of their star twirler, but nevertheless have a record of seven victories to five defeats. Zigmund Rogers and

THE FINISH OF THE HUNDRED - YARD DASH

This exceptionally fine photograph, taken by a Deerfield student, shows Gardiner Maxcy of Governor Dummer and Fred Dunn of Deerfield breaking the tape for a tie in the dual meet.

Howard Walker lead the Governors at the bat with ratings of .432 and .429 respectively. Sarnecki follows with .395, Caddoo with .353 and Mack with .327.

Deerfield Academy Defeats Governors In Close Game

The crack Deerfield Academy baseball team defeated Governor Dummer on Saturday afternoon, May 14, at South Byfield by a 3 to 2 score.

Turner of Deerfield led with a long single to left field, and two successive bunts filled the bases with none out. During an attempted squeeze play, Turner was caught between home and third, but Rogers, the Governor Dummer catcher, elected to try for the runner at second and allowed Turner to score. Giovannangeli attempted to catch the runner at first but mistook the Deerfield coacher for Cushman, the Governors' first baseman, who was covering the plate. The result was that two runners scored for Deerfield. Pillsbury's single to right field scored Ray with the third and winning run.

The Governors scored in the third inning when Rogers was hit by a pitched ball, stole second, continued to third, and scored on Sarnecki's single to left field. In the sixth inning, Giovannangeli singled over second base, stole second, and scored on Rogers' drive to left field. Rogers, however, was caught at the plate when he attempted to score on Sarnecki's hit to center.

MAXCY BEATS DUNN OF DEERFIELD IN DUAL MEET AND AMHERST SCHOLASTICS

The student body witnessed its track team in action on Morse Field for the first time on Saturday, May 14, when the Governors met the Deerfield team and lost 62 - 37.

The feature of the meet and one of the biggest surprises occurred in the 100-yard and the 220-yard dashes. Running against Dunn, for two years Deerfield's star sprinter, Gardiner Maxcy won the 220 and tied for first in the hundred. Roger Wood won the discus throw and placed second in the shot-put. John Orr easily won the javelin throw, and John Healy took third with a throw that would have won him a second place if it had been better directed. George Clapp, running the best race of his career, took first place in the mile, and Nathaniel Sanders was a close second in the 880.

At the Amherst Interscholastic meet on Memorial Day Governor Dummer took eighth place among the nineteen contestants. Gardiner Maxcy duplicated his performance in the Deerfield meet by leading Dunn of Deerfield to the tape in the 220, but trailed him by two places in the hundred, taking a fourth. Captain Reiche tied for fourth in the high-jump, and Howard Walker and John Orr took third and fourth places, respectively, in the javelin.

The beautiful and sporty nine-hole course of the Ould Newbury Golf Club lies on a portion of the Governor Dummer estate leased to the club under an agreement which enables students to play at a nominal fee.

GOLFERS CLOSE SEASON WITH VICTORIES OVER LAWRENCE AND BELMONT

In their third match of the season the Governor Dummer golfers were defeated 6 - 3 by the Quincy High School team. The match was played on the Ould Newbury links on May 14. Albert Disbro and Louis Wyman each won his match, and they also won best ball in their foursome to account for all the Governors' points.

Disbro and Wyman again accounted for all three points in a 6 - 3 defeat by Worcester North High on May 21 on the local course. Elwood Chase replaced James Smith in this match, which had an additional element of interest in that Reginald Morrill, in his second year at Governor Dummer, was playing against the team of his old school.

Disbro, Wyman, and William Henneberry each won as the Governors lost their third match by the score of 6 - 3, this time to Phillips Academy at Exeter on May 24. This was by far the closest match of the season; for Louis Wyman went to the twenty-third hole before losing his fight for best ball in the foursome, and Henneberry was forced to play an extra hole to take his match. Mr. Crosbie, the Exeter coach, very generously invited the Governor Dummer players to play the course early next year in order to be

familiar with it before the scheduled match.

In the last two matches of the season the Governors won easy victories over Lawrence Academy and Belmont Hill on June first and third respectively, giving them a record of three victories and four defeats for the season. In the Lawrence match Disbro lost the only match to the visitors. Brannigan, his opponent, went out in 40 and came in in 41 for the lowest total of the season. In the Belmont Hill match the Governors made a clean sweep, although Henneberry and Disbro were both forced to play extra holes.

A tournament between members of the squad not playing regularly on the team was won by Wentworth Smith, with Reginald Morrill second. The prizes will be awarded at Commencement.

TENNIS TEAM WINS TWO TO CONCLUDE SCHEDULE

On May 25 the tennis team ended its season with a 5-1 victory in a return match with the Beacon School of Wellesley, giving them a record of three victories in a seven game schedule. The team came along somewhat slowly in the early part of the season, really found itself in the match with Worcester North High on May 20, and sailed through the final match in top form.

The complete record of the team since the

last issue of *The Archon* includes a 4 - 1 defeat by the Tilton School of New Hampshire on May 18, a 3 - 2 victory over Worcester North High on May 20, and the final 5 - 1 victory over the Beacon School. The Worcester match was particularly encouraging because the Worcester players had previously been beaten only by Middlesex and were considered to be an exceptionally strong group.

*Walker, Cushman, and Barndollar
Win Morse Tennis Trophies*

In the annual spring tennis tournament Howard Walker defeated John C. Cushman, Jr., in the singles, and Cushman and Hugh Barndollar defeated Walker and Edward Underwood in the doubles. The tennis trophies donated by the Reverend Glenn Tilley Morse were awarded by Mr. Eames at the Graduation Exercises on June 10.

SECOND BASEBALL TEAM
WINS ALL BUT TWO GAMES

This year's second team has completed its season with a record of six victories and only two defeats. Mr. Hogenauer's charges met their two defeats in the first and last games of their schedule, with the Amesbury and Newburyport freshmen respectively. The teams defeated were Story High of Manchester (two games), the Ipswich seconds, the Brooks School Juniors, the Stowe School of Andover, and the North Shore Country Day School.

Captain Vasmer Flint was one of the outstanding players of the season. At second base he committed very few errors, and at the bat he did his share also. Martin Gowdev, David Fulton, and Perry Reynolds were the outstanding hitters. Spencer Curry's fine pitching was largely responsible for his team's success. Dana Douglass, a left-hander, proved to be a very fine catcher. John Hinchman at first, George Tryon at third, Seth Martin in center field completed the team.

The team probably played its best game at Manchester on May 18. Story High, playing on its own field, was anxious to avenge the defeat administered by the Governors earlier in the season, and was encouraged by a large crowd of rooters. Spencer Curry pitched his usual fine game and received excellent support. At the bat particularly the Governors had a field day. They were somewhat troubled by a left-handed pitcher in the first innings but soon solved his offerings and forced him to retire. The game ended with a spectacular running catch by Henry Root in right field.
